

## The Kathryn F. Kirk Center for Comprehensive Cancer Care and Women's Cancers

Opening to patients in late 2022

“Truly, one would be hard-pressed to find a more noble cause to support. Your generosity will ensure Huntsman Cancer Institute remains a world-leader not just in cancer research and care, but as a world leader in healing and recovery.”

– Peter Huntsman, Huntsman Cancer Foundation CEO

“Huntsman Cancer Institute is at a pivotal point in its history. Our clinical, research, outreach, and education programs grow on a daily basis, and we are providing care to more patients and families affected by cancer than ever before. Saving lives is a sacred responsibility and addressing the needs of people living with cancer in a holistic manner is a distinguishing feature and core philosophy at HCI.

With HCI’s leadership in cancer genetics and cancer care, linked to the needs of patients in our communities, now is the time to expand our capacity for healing and hope.”

– Mary Beckerle, PhD, Huntsman Cancer Institute CEO

Huntsman Cancer Institute's (HCI) Hospital is always full, regularly operating at 100% capacity and the need for cancer services will only increase.

In the fulfillment of our mission, HCI's guiding principles are the patient and community first, united effort, and excellence in all we do. This expansion will enhance our ability to meet our commitment in service to our patients. In addition to the need for greater inpatient capacity, expanded outpatient, wellness, and survivorship support services will be offered to patients and their families.

*Exterior, looking northwest*

## NAMED SPACE OPPORTUNITIES:

This facility will feature details to match the décor of our existing hospital. Large, panoramic windows and ample natural light will provide an atmosphere of optimism, serenity, and healing:

- Cherry and maple-wood walls and ceilings
- Granite floors and finishes
- Inspiring artwork
- Comfortable furnishings and soothing colors

*First Floor Bridge*

This expansion will include 48 additional inpatient rooms, a floor dedicated to the screening and treatment for breast and gynecological cancers, additional clinical space, and an expanded Wellness and Integrative Health Center. Doubling the size of our existing wellness and survivorship programs, cancer patients throughout Utah and beyond will have access to an array of therapies and services to complement their cancer treatment, enhance outcomes, and foster lifelong well-being.

Available named spaces range from \$10K to \$10M and some examples include:

- Exam room - **\$25K**
- Reception and Waiting areas - **\$250K - \$500K**
- Skybridge - **\$2M**
- Floor lobby - **\$1M - \$5M**

*Clinic Waiting Room*

### **SIGNATURE SERVICES:**

- Specialized care for the mind, body, and spirit before, during, and after treatment
- Advanced programs for cancer screening, diagnosis, and treatment
- Expanded clinic space for breast, cervical, and ovarian cancers
- Precise diagnosis leading to the most effective treatments
- Private meeting spaces for oncologists and patients

### **KEY FEATURES:**

- 220,000 square-feet dedicated to healing and hope
- Expanded Wellness and Integrative Health Center
- Centralized location for women's cancer screenings, clinics, and radiology services
- More outpatient clinics and consultation space
- 48 new private inpatient rooms—a 50% increase
- Convenient valet parking
- \$148 million cost

*"Our purpose for existence is to serve the patient."* Jon M. Huntsman, Founder
